REQUESTS AND SUBPOENAS FOR DOCUMENTS

State Department

September 20, 2012—Letter from the House Committee on Oversight and Government Reform [OGR] to Hillary R. Clinton, Secretary of State, requesting seven categories of documents pertaining to the Benghazi attacks: 1) Benghazi security situation; 2) threat assessment for US personnel; 3) preliminary attack site exploitation; 4) pre-attack warnings; 5) evidence supporting or contradicting Rice statement blaming video; 6) evidence supporting or contradicting Magariaf’s statement that attacks were premeditated; 7) attack information.

The State Department provided OGR eight batches of documents totaling 25,000 pages on a “read and return” basis. OGR was allowed to review the documents, but custody and control of the documents, which were returned to the Department at the end of each day, was retained by the Department.

December 13, 2012—Letter from OGR to the Secretary requesting information on, among other things, whether the Secretary used personal email for official business.

The State Department’s written response on March 27, 2013, did respond to the question regarding the Secretary’s use of personal email for official business.

August 1, 2013—Subpoena from OGR to State Department for records previously produced on a “read and return” basis. The subpoena required copies of these documents previously provided on a “read and return” basis.

The State Department produced 25,000 pages of heavily redacted documents to OGR, with the last installment being produced on April 17, 2014.

August 11, 2014—Letter from the State Department to the Committee accompanying the production of approximately 15,000 pages of documents never before produced to Congress. This production included eight emails sent to or from “H” or HDR22@clintonemail.com. This production also excluded documents involving purported “institutional interests.”

According to the State Department, this production fulfilled compliance with OGR’s September 20, 2012, request and OGR’s August 1, 2013, subpoena for “reading room” records. However, as the Committee later determined, responsive records of senior leaders were not included in any production, revealing notable gaps in the records of the Secretary of State and other senior leaders.

September 30, 2014—Letter to the State Department formalizing prior informal requests for lesser redacted versions of documents provided to OGR only on a “read and return” basis. The letter also requests production of any Administrative Review Board [ARB] documents requested by Congress.

November 18, 2014—Letter to the State Department requiring production of the records of the Secretary and ten senior leaders. The specific request was for “any and all documents and communications referring or relating to policies, decisions, or activities regarding: (1) security of the United States facility in Benghazi that was attacked on 9.11.2012 (the “Special Mission”); (2) the State Department’s decision to open or maintain the Special Mission; (3) the attacks on the Special Mission on 9.11.2012; or (4) weapons located or found in, imported or brought into, and/or exported or removed from Libya, authored by, sent to, or received by [one of the named individuals].”

The State Department produced only 847 pages of the former Secretary of State's emails and other documents before subpoenas were issued on March 4, 2015, commanding production of these records. Following the issuance of the subpoena, additional records were produced. In all, the Committee received just over 42,000 pages of documents to and from the Secretary of State and senior leaders. However, not all records were produced.

November 24, 2014—Letter from the State Department accompanying the production of the first set of less-redacted “reading room” documents.

December 2, 2014—Letter to David Kendall, attorney for the Secretary, requesting production of official documents in her custody.

In response, on December 29, 2014, Kendall informed the Committee that the Secretary returned records to the State Department and the State Department would be providing any relevant records to the Committee. The Secretary produced no records to the Committee.

December 4, 2014—Letter to the State Department requesting interviews of four agents who survived the attacks in Benghazi and who have not been previously interviewed by a congressional committee.

It took the State Department until March-April 2015 to schedule interviews for these agents.

December 4, 2014—Letter to the State Department requesting interviews of 18 agents and four principal officers who served in Benghazi before the attacks.

The State Department did not begin to schedule interviews until February 2015.

December 9, 2014—Letter from the State Department accompanying production of the second and final set of less-redacted “reading room” documents previously reviewed by the OGR.

The total of the two productions was approximately 25,000 pages of documents.

December 17, 2014—Letter from the State Department acknowledging receipt of document and interview requests and requesting that the Committee prioritize its requests.

December 29, 2014—Letter from the Secretary (via attorney) stating the State Department, not the Secretary, will comply with Committee’s December 2, 2014, request for any official records personally retained by the Secretary.

January 28, 2015—Subpoena for ARB documents with cover letter. Note: The Committee subpoena was identical to an OGR subpoena previously issued on August 1, 2013.

The request was fulfilled according to the State Department by production of documents on April 15 and 24, 2015, of approximately 4,300 pages. However, the Committee sent a letter to the State Department on June 12, 2015, regarding various missing documents. A missing four-page interview report was subsequently delivered on February 25, 2016. The State Department previously claimed the ARB had reviewed over 7000 documents totaling thousands of pages.

February 13, 2015—Letter from the State Department accompanying the production of 895 pages of emails and documents, including approximately 847 pages of emails to and from the former Secretary of State; approximately four pages relating to the January 28, 2015, subpoena, and approximately 43 pages of documents omitted from previous productions.

March 3, 2015—Letters sent from the Committee to registrar of domain name and internet service provider used by the Secretary ordering the preservation of relevant records.

March 4, 2015—Subpoena from the Committee to the State Department for records of ten senior officials for documents referring or relating to: (1) Libya; (2) Libyan weapons programs; (3) Benghazi attacks; (4) post-attack statements for years 2011-2012.

The State Department produced records of senior leaders, however, the production did not include records for all ten senior leaders named in the subpoena and the prior request. Moreover, the productions covered only discrete time frames, not the two-year time period called for by the requests. Additionally, the State Department affirmatively stated it was withholding relevant documents that pertained to “executive interests”.

Approximately 39,875 documents were produced on these dates:

<i>May 22, 2015</i>	<i>1199 pages</i>
<i>June 30, 2015</i>	<i>3636 pages</i>
<i>July 28, 2015</i>	<i>8254 pages</i>
<i>Aug. 21, 2015</i>	<i>7452 pages</i>
<i>Aug. 28, 2015</i>	<i>4703 pages</i>
<i>Sept. 3, 2015</i>	<i>110 pages</i>

<i>Oct. 9, 2015</i>	<i>3456 pages</i>
<i>Oct. 15 2015</i>	<i>122 pages</i>
<i>Nov. 6, 2015</i>	<i>812 pages</i>
<i>Nov. 24, 2015</i>	<i>2789 pages</i>
<i>Dec. 31, 2015</i>	<i>2448 pages</i>
<i>Jan. 21, 2016</i>	<i>886 pages</i>
<i>Feb. 26, 2016</i>	<i>1650 pages</i>
<i>April 8, 2016</i>	<i>1075 pages</i>

March 4, 2015—Subpoena from the Committee to the Secretary (via her personal attorney) for documents referring or relating to: (1) Libya; (2) Libyan weapons programs; (3) Benghazi attacks; (4) post-attack statements for years 2011-2012.

Notwithstanding the State Department's claim that it had produced all relevant records and "erred on side of inclusion" when it produced 847 pages of records on February 13, 2015, additional productions of official records of the former Secretary of State were produced by the State Department:

*June 10, 2015 1 page
June 25, 2015 105 pages
Sept. 25, 2015 1899 pages*

March 26, 2015—Letter to the State Department reiterating demand for ARB documents; reiterating demand for records of senior leaders; and outlining State Department's hindrance of Committee's efforts to obtain additional information and answers to basic questions on records management. A briefing on records management is requested within two weeks.

Enclosed was a letter from Under Secretary for Management Patrick Kennedy sent on March 23, 2015, to the Secretary affirming any official records belong to the State Department. Letter also contains a disclosure that all information during the requested time period on the Secretary's server had been deleted.

April 15, 2015—Letter from the State Department accompanying the first production of ARB records consisting of approximately 1758 pages of documents.

This production was in response to January 28, 2015, subpoena from the Committee and its predecessor subpoena issued by the House Oversight and Government Reform Committee on August 1, 2013.

April 24, 2015—Letter from the State Department accompanying production of a second set of ARB records consisting of approximately 2,523 pages. The letter explains that, in the view of the State Department, this completes compliance with ARB subpoena(s).

The two productions of documents totaling just over 4,300 pages conflicts with a letter from the State Department to the House Oversight and Government Reform Committee stating that the ARB reviewed over 7000 documents totaling thousands of pages. Upon review of the documents provided to the Committee, a letter was sent June 12, 2015, outlining missing documents and requesting additional productions. However, only one missing interview summary consisting of four pages was produced ten months later on February 25, 2016.

May 11, 2015—Letter from the Committee to the State Department requesting interviews with head of information technology for the Executive Secretariat during 2011-2012 and with the Agency Records Officer within next ten days.

<i>Oct. 5, 2015</i>	<i>1370 pages</i>
<i>Oct. 9, 2015</i>	<i>1828 pages</i>

<i>Oct. 20, 2015</i>	<i>1296 pages</i>
<i>Oct. 21, 2015</i>	<i>866 pages</i>
<i>Nov. 6, 2015</i>	<i>344 pages</i>
<i>Nov. 24, 2015</i>	<i>647 pages</i>
<i>Total pages:</i>	<i>8939</i>

By agreement, a select portion of Sean Smith records were reviewed and approximately 175 pages were produced on April 8, 2016.

June 25, 2015—Letter from the State Department accompanying production of approximately 105 additional Secretary Clinton email exchanges with Sidney Blumenthal regarding Libya. June 30, 2015—Letter from the State Department accompanying the production of approximately 3,636 pages of emails to and from Jacob Sullivan, Cheryl Mills, and Susan Rice.
